

A NATIONAL CALL TO ACTION

THE COMENSA LEGACY PROGRAMME

South Africa is calling for a new kind of leadership
— emotionally intelligent, ethically grounded, and purpose-driven. As professional coaches and mentors, we are uniquely positioned to answer that call.

We are proud to introduce the COMENSA Legacy Programme
— a bold national initiative designed to extend coaching impact beyond individual practice and into the heart of our communities.

WHAT IS THE COMENSA LEGACY PROGRAMME?

The Legacy Programme is a structured, high-impact coaching movement aimed at empowering:

- Youth navigating uncertain futures
- Leaders of Non-Profit Organisations (NPOs)
- Entrepreneurs building sustainable enterprises
- Educators of vulnerable communities

Our goal is simple yet profound: To strengthen South Africa by strengthening its leaders.

This is coaching beyond the session.

This is impact at scale.

This is nation-building through professional excellence.

WHY THIS MATTERS NOW

- South Africa urgently needs emotionally intelligent leadership.
- Youth unemployment remains a pressing national challenge.
- NPOs and entrepreneurs are the lifeblood of our communities — and their leaders deserve professional support.
- Coaching must evolve beyond private practice to create broader societal impact.

As COMENSA members, we carry not only a designation — we carry responsibility.
